

EZ Fleet Integration

Updated May 6, 2020 | <https://carrier.macropointconnect.com/>

Connection Overview

To move forward with an EZ Fleet Integration we will need a username and password that has access to the “SVR” portal/user interface.

Connection Instructions

1. Generate the username and password. You may create a new user specifically for this connection if you'd like
2. Once created, provide the credentials to your assigned MacroPoint Activations Consultant or send to MPActivations@Descartes.com
3. We will test the connection before finalization which requires identifiers. EZ Fleet uses device serial numbers
