

EROAD Integration

Updated May 6, 2020 | <https://carrier.macropointconnect.com/>

Connection Overview

To move forward with an Eroad integration we will need an API key.

Connection Instructions

1. Follow the instructions contained in the following link to create an API key:
<https://help.eroad.com/us/us-apideveloperresources/us-eroadapi/us-apikey/>
2. Once created, provide the API key to your assigned MacroPoint Activations Consultant or send to MPActivations@Descartes.com
3. We will test the connection before finalization which requires identifiers. Eroad uses vehicle names
