

MONARCH TRACKING INTEGRATION

Updated May 1, 2019 | www.Carrier.MacroPointConnect.com/Technical-Documentation

HOW TO CONNECT

1. To move forward with a Monarch Tracking integration, you will need your **username** and an **app token** that can be generated by the carrier via the instructions below:

1. Open a web browser, and log in to portal.gpsinsight.com.
2. From the Menu Bar, hover over the **Account** menu, point to **Manage Users**, and click **Manage access to api V2 functions**.

The Manage API Apps page appears.

3. In the API Apps List grid, click **API App** next to Create New.

4. In the New API App window, enter an App Name and Description, and click **Save API App**.

App Name: xyzcompany
Description: vender access
Username: cdavis
Save API App
NOTE: An app_token will be generated for this app. You can reset this token by editing the app. **close**

A new App Token is generated:

App Name	Token	Description	Username	Active
xyzcompany	55cb7efa59575	vender access	tjones	yes

Create New: [API App](#)

2. Please send the **username** and **app token** to your dedicated Descartes MacroPoint Carrier Activation Consultant once that information has been obtained or created. If you have not been assigned a dedicated MacroPoint rep yet, please send this information to MPActivations@descartes.com.

NOTES

When requesting an API Key or user credentials to be provided for use with Descartes MacroPoint, please ensure that the credentials have administrative permissions/API access.
